## PROFESSIONAL SUMMARY

---

I am a Frontend Web & Mobile Developer with a passion for creating visually stunning, user-friendly, and high-performance digital solutions. I specialize in building responsive websites and intuitive mobile applications using React, Next.js, React Native, FlutterFlow, and WordPress. I have hands-on experience in full-stack web applications, developed mobile app prototypes, and gained practical backend experience using Express.js. I collaborate closely with designers to optimize UI/UX and follow best practices in Git workflow, delivering projects that exceed client expectations. With a balance of frontend mastery and backend knowledge, I craft digital experiences that are both functional and visually compelling.

## TECHNICAL SKILLS

---

React   Next.js   React Native   JavaScript   TailwindCSS   WordPress   Express.js  
MongoDB   FlutterFlow   Canva   Figma

## PROFESSIONAL EXPERIENCE

---

### Frontend Developer – Gstech Hub (2025)

- Developed and tested a mobile app using **React Native and FlutterFlow**, enhancing cross-platform user accessibility.
- Built responsive web components with **React** and **TailwindCSS**, improving user engagement and experience.
- Integrated REST APIs into frontend projects, ensuring seamless data flow between client and server.
- Collaborated with designers and backend developers to deliver pixel-perfect UIs aligned with project goals.
- Applied version control using **Git & GitHub** to manage team contributions effectively.

- Contributed to project documentation and agile sprints, strengthening teamwork and productivity.
